Upon careful reconsideration, applicant's arguments are found persuasive. The prior art of record, either taken alone or in combination, including the newly-cited prior art, does not fairly teach or suggest the claimed combination of features; more specifically, a portable engine-powered hand tool as claimed in combination with a locking pin as claimed and a magnet as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### Additional Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The newly-cited prior art disclose inventions which have features similar or pertinent to the claimed invention. However, these inventions, each taken alone or in combination with the prior art of record, do not teach or fairly suggest the claimed invention.
